## Public Land Access - Problem Identification Form

This form is a tool that sportsmen and landowners can use to report conflicts involving access to state and federal lands. Problems like trespass resulting from inadequate boundary marking, improperly posted or mismarked lands, or other conflicts related to public land access should be reported to the appropriate land management agency. In the event of these or other access conflicts, you should fill out this form and provide it to the **appropriate regional office** of the state or federal land management agency that oversees the property (**see back of form**). Remember, not all public lands are legally accessible. Public lands may only be accessed via a public right-of-way or with permission from the adjacent landowner. If you are unsure if the lands you are trying to reach are legally accessible, contact your local U.S. Forest Service, Bureau of Land Management, Montana Department of Natural Resources & Conservation, or Montana Fish, Wildlife & Parks office.
